

## **Round table and outlook: defining projects that make the next steps.**

*Tuesday 20 February 2024 15:00 (2 hours)*

- A review of any remaining potential in the following:
- Projects in quantum classification/anomaly detection.
  - Projects in tracking/annealing/optimisation.
  - Projects in quantum generative modelling
  - Projects in hamiltonian learning
  - Projects in topological data analysis
  - Projects in entanglement and bell tests
