# Alarm test

## German Warning Day: What to expect on September 12, 2024

On September 12, Germany will run another Warning Day. At **11am** people in Germany will receive a trial warning message via their mobile phone, radio or TV.

You can read the warning when it appears but you do not need to do anything. A "warning test over" message will follow at **11.45am**, unless the message is received via cell broadcast, in which case you will not receive an *Entwarnung* (unwarning message).
