

## **Software Security L3: Web application security, exercise debriefing**

*Thursday 12 September 2024 09:45 (1 hour)*

This third hour consists of a debriefing of the exercises, and in particular those web-related. Various vulnerabilities typical to web applications (such as Cross-site scripting, SQL injection, cross-site request forgery etc.) are introduced and discussed.

### **Summary**

**Presenter:** LOPIENSKI, Sebastian (CERN)
