

UH Physics Research Day - 2024

Contribution ID: 34

Type: **Poster**

Atmospheric neutrino zenith angle and non-standard interaction study

Saturday 24 February 2024 13:40 (20 minutes)

Introduction to neutrino oscillation, atmospheric neutrino, NOvA experiment and non-standard neutrino interaction on atmospheric neutrinos.

Academic year

5th year and/or beyond

Research Advisor

Lisa Koerner

Author: HE, Muyuan (University of Houston)

Presenter: HE, Muyuan (University of Houston)

Session Classification: Poster Session

Track Classification: High Energy Physics, Nuclear Theory and QFT
