HEPiX Technology Watch Working Group Report

Thursday 18 April 2024 10:15 (25 minutes)

The Technology Watch Working Group, established in 2018 to take a close look at the evolution of the technology relevant to HEP computing, has resumed its activities after a long pause. In this first official report after such pause, we describe our goals, how the group is organized and the first results of our work.

Desired slot length

20
