

Session Program

15-19 Apr 2024

HEPiX Spring 2024 Workshop

Deploying dual-stack IPv6/IPv4 connectivity to site computing services

Laboratoire Astroparticule et Cosmologie (APC) de l'Universit  Paris-Cit , Amphith atre Buffon
15 rue H l ne Brion 75013 Paris France

Thursday 18 April

14:45

Deploying dual-stack IPv6/IPv4 connectivity to site computing services: WLCG GGUS ticket campaign for CPU services and worker nodes

Session |

Location: Laboratoire Astroparticule et Cosmologie (APC) de l'Université Paris-Cité, Amphithéâtre Buffon, 15 rue Hélène Brion 75013 Paris France |

Conveners: Dr Andrea Sciabà, David Kelsey

14:45-15:10

WLCG GGUS ticket campaign for dual-stack CPU services and worker nodes

Speaker

Dr Andrea Sciabà

15:10

15:40

Deploying dual-stack IPv6/IPv4 connectivity to site computing services

Session |

Location: Laboratoire Astroparticule et Cosmologie (APC) de l'Université Paris-Cité, Amphithéâtre Buffon, 15 rue Hélène Brion 75013 Paris France |

Conveners: Bruno Heinrich Hoeft, Dr Andrea Sciabà, David Kelsey

15:40-15:55

Puppet module for Network Manager

Speaker

Alexandr Mikula

15:55-16:15

IPv6 deployment on containers at RAL Tier1

Speaker

Martin Bly

16:15-16:45

IPv6 deployment at KIT and removing IPv4

Speaker

Bruno Heinrich Hoeft

16:45-17:00

Discussion and further information

Speaker

David Kelsey

17:00
