

The 2024 European School of High-Energy Physics

Peebles, United Kingdom,
25 September – 8 October 2024

- Group D Hadron spectroscopy and the observation of new states
- Group C The Higgs mechanism and the origin of matter
- Group F Results on quark gluon plasma
- Group A Neutrino flavour physics (CP violation, oscillations, ...)
- Group E Electroweak precision measurements (except Higgs)
- Group B Searches for new physics (axions and dark matter)
