**I'M CODING!**

# **WP7: DB and repository**

**Saverio Mariani,  
CERN**

# Mandate and composition

-DB repository

Chiara Lucarelli

Pasquale Di Nezza

Saverio Mariani

All coming from the ongoing SMOG2 experience

- Well, you know Pasquale...
- Chiara is SMOG2 data-quality contact and has implemented the GasFeedSystem-LHCb run control interface, real-time monitoring and SMOG2 ECS
- I am SMOG2 Run Coordinator, implemented event reconstruction and trigger, data storage policies, documentation and training

- Mandate will be to glue the different activities covering **persistency and storage of the acquired data and project outcome**
  - As intermediate goal (for PBC), want to have a webpage describing the project, the published documents, talks... to have **a clear and nice business card**

# An example

Logo

Project one-line description

Home About Research Publications Talks ~~Theses~~ Jobs Events Team

Home

Home / SELDOM

- **We already have a nice logo**, so we are halfway...
- Is there any specific thing you'll like to see in a similar webpage? Please get in touch
- On a longer timescale we will discuss and take care of data storage and policies
