The New PDG Python API

Monday 1 July 2024 17:00 (30 minutes)

The Python package pdg provides a high-level tool for programmatically accessing the data published by the Particle Data Group (PDG) in the *Review of Particle Physics*. We will give an overview of the package and the functionality it provides, and will then demonstrate its use and show a number of examples.

Authors: BERINGER, Juerg (Lawrence Berkeley National Laboratory (LBNL)); LUGOVSKY, Kirill (Lawrence Berkeley National Laboratory); KRAMER, Matt (Lawrence Berkeley National Laboratory)

Presenters: BERINGER, Juerg (Lawrence Berkeley National Laboratory (LBNL)); KRAMER, Matt (Lawrence Berkeley National Laboratory)

Session Classification: Plenary Session Monday
