

CERN Computing Facilities Evolution Update

Monday, October 24, 2011 2:00 PM (30 minutes)

There are a number of projects currently underway to improve and extend the CERN computing facilities which have been reported at previous HEPiX meetings. An update will be given on the current status of these projects and particular emphasis will be placed on efficiency improvements that have been made in the CERN Computer Centre and the resulting energy, and hence cost, savings.
