

VCI2025 - The 17th Vienna Conference on Instrumentation

Thursday 20 February 2025

Semiconductor 3D (09:00 - 10:40)

time	[id] title	presenter
09:00	[127] Improving spatial and timing resolution of 3D diamond detectors	LI, Huazhen
09:25	[152] Development and production of advanced 3D pixel sensors at FBK	BOSCARDIN, Maurizio
09:50	[292] Could we efficiently operate 3D silicon pixel-based tracking detectors irradiated with neutron fluences up to $1E+18$ $1MeVneq/cm^2$?	CARDINI, Alessandro
10:15	[81] Development of fast-timing sensors and multichannel characterisation board	WILLIAMS, Morag
