

Session Program

17-21 Feb 2025

VCI2025 - The 17th Vienna Conference on Instrumentation

SIPM

Vienna University of Technology
Gusshausstraße 27-29, 1040 Wien

Wednesday 19 February

09:00

SiPM

Session | Location: E18

09:00-09:20

Microlens-enhanced SiPMs for the LHCb SciFi tracker Upgrade II: update and recent results

Speaker

Federico Ronchetti

09:25-09:45

Cryogenic operation of neutron-irradiated SiPM arrays from FBK and Hamamatsu

Speaker

Esteban Curras Rivera

09:50-10:10

Test beam performance of a novel compact RICH detector with timing capabilities for the future ALICE 3 PID system at LHC

Speaker

Roberta Pillera

10:15-10:35

The SiPM readout plane for the ePIC-dRICH detector at the EIC: overview and beam test results

Speaker

Mr Nicola Rubini

10:40
