Tagging = Reconstruction = Detector Simulation = Event Generation = Astrophysics
Unfolding = Theory = Anomaly Detection = Uncertainties = Interpretability

# Welcome to ML4Jets 2024 Cood bye

On behalf of the local organizing committee

Anja Butter (LPNHE)

Reina Camacho (LPNHE)

Benjamin Fuks (LPTHE)

Nabil Garroum (LPNHE)

Vladimir Gligorov (LPNHE)

Mark Goodsell (LPTHE

Bertrand Laforge (LPNHE)

Bogdan Malaescu (LPNHE)

David Rousseau (IJCLab)

# We made it:)

- 106 contributions
- from 10 different tracks
- 140 in person participants
  150 online participants

#### **Tracks**

Anomaly detection
Astro & Cosmo
Detector simulation
Event generation
Foundation models
Reconstruction
Tagging
Theorie
Uncertainties & Interpretation
Unfolding & Inference

## Last requests

From us: Please return your **badges** for reuse

From you: Certificates of attendance will be send upon request

### Recordings

We will send forms for agreement to all speakers

Please answer asap!

## We would like to thank

LPNHE for hosting this event and providing us with the full infrastructure

Sorbonne University for hosting the Reception in Tour Zamansky

**SCAI** for the reception lunch
