

Injector MDs week 41

- PSB & PS MDs ongoing

- SPS MDs:

W39:

Crystal shadowing + TAX and wobbling + *hysteresis compensation*

W40:

LIU MD

W41:

Spill studies + octupole folding (TED in the morning and extraction needed to primary targets in the **afternoon**)

→ Slot extended by 2h to recuperate some of the lost time due to planned access in the recent weeks

→ Many thanks to OP, Physics coordination and EA for their help!

W43:

LIU MD
