## CONTRIBUTION TO SPIN-OFF CREATION

An aerial photograph of a university campus, likely FEUP in Porto, Portugal. The image shows a dense cluster of modern, multi-story buildings with light-colored facades and flat roofs. A large parking lot filled with cars is visible in the foreground. The campus is surrounded by a cityscape with residential buildings and green spaces. In the background, the sea is visible under a blue sky with scattered white clouds. A white network diagram with circular nodes and connecting lines is overlaid on the left side of the image.

# RESEARCH & INNOVATION

## S3 | Smart Specialisation Strategy

### Regional Innovation Valleys

#### Innovation challenges:

- reducing the reliance on fossil fuels,
- mastering the digital transformation,
- improving healthcare,
- achieving circularity,
- increasing global food security.

# FEUP CORPORATE MEMBERSHIP PROGRAMME

A group of people in a professional setting, possibly a recruitment event or office, with a man in a suit talking to a group of students.

**TALENT ATTRACTION**  
boost your employer brand

A group of students in a laboratory or classroom setting, with a man in a white lab coat pointing at a document.

**EDUCATION**  
engage top students to solve  
real problems and create  
innovative solutions

A group of people in a meeting or conference setting, with a man in a suit sitting on a stage and addressing an audience.

**RESEARCH**  
work with FEUP scholars  
on cutting-edge challenges

A group of people in a social setting, possibly a conference or networking event, with a man in a striped shirt and a woman in a white top smiling.

**ENGAGEMENT**  
participate in the life of the  
academic community

**Partners** are companies that decide to make an investment in a deep and long term strategic relationship with FEUP, defining common innovation goals and involving senior staff and top talents in the process.

**Affiliates** are companies recognized by their long lasting or strong relations with our engineering departments, established through cooperation in dissertations, internships and other project studies, or in sponsored research and tech transfer activities.
