Precision Higgs measurements and calculations 3 - sal IV (9:00 AM - 10:40 AM)

-Conveners: Stephen Philip Jones; Susan J Dittmer; Stefano Manzoni

time	[id] title	presenter
9:00 AM	[52] Measurements of Higgs boson coupling properties to bottom and charm with the ATLAS detector	MISSIO, Marion
9:20 AM	[57] STXS and differential cross section measurements at CMS, fermionic channels	GENNAI, Simone
9:40 AM	[66] Constraints on Higgs-charm couplings	WUCHTERL, Sebastian
10:00 AM	[74] Higgs boson production in weak-boson fusion and $H \rightarrow b\bar{b}$ decay at NNLO with realistic event selection criteria	NOVIKOV, Ivan
10:20 AM	[60] Searches for rare Higgs boson production processes with the CMS detector	Mr BEVILACQUA, Tiziano
