

Minimum Bias and Underlying Event Working Group

Friday, 17 June 2011

Cross sections, diffraction and forward physics - TH Theory Conference Room (09:00 - 13:30)

time	[id] title	presenter
09:00	[0] Inelastic cross section measurement in ALICE	GAGLIARDI, Martino
09:20	[1] Measurement of visible (and extrapolation to total) pp cross section in CMS	Mr CARTIGLIA, Nicolo
10:00	[2] Diffraction and forward rapidity gap measurement in MB events in ATLAS	Mr MARTIN, Tim
10:20	Coffee break	
10:40	[3] Diffraction dissociation in pp with ALICE	POGHOSYAN, Martin
11:00	[4] New forward physics results from CMS	EUGSTER, Juerg
11:30	[23] Latest results from LHCf	MENJO, Hiroaki
11:40	[21] Cosmic-rays MCs vs LHC data	D'ENTERRIA, David
12:30	Lunch break
