The DRD3 Speakers Committee

Contact: ulrich.parzefall@cern.ch

drd3-wg8-conveners@cern.ch   (not active yet)

DRD3 Speakers Committee

- **Basic Mission of a Speakers Committee (SC)**
  - **Generate visibility for collaboration (and review overview papers)**
  - Identify conferences and workshops of interest to collaboration
  - Submit abstracts, communicate with conference organisers, generate invitations
  - Identify suitable speakers
  - Rehearse and review talks (and proceedings/papers)

DRD3 Speakers Committee

- **Basic Mission of a Speakers Committee (SC)**
  - **Generate visibility for collaboration (and review overview papers)**
  - Identify conferences and workshops of interest to collaboration
  - Submit abstracts, communicate with conference organisers, generate invitations
  - Identify suitable speakers
  - Rehearse and review talks (and proceedings/papers)

- **Personal experience**
  - Several years on ATLAS ITK (also as chair) and on RD50 SC
  - SC in a large experiment like ATLAS is major task with diverse bureaucratic and political challenges.
  - RD50 SC was very basic system (mostly PLs, IB Chair plus myself), not systematic, not really a "Speakers Committee"

DRD3 Speakers Committee

- **Basic Mission of a Speakers Committee (SC)**
  - **Generate visibility for collaboration (and review overview papers)**
  - Identify conferences and workshops of interest to collaboration
  - Submit abstracts, communicate with conference organisers, generate invitations
  - Identify suitable speakers
  - Rehearse and review talks (and proceedings/papers)
- **Personal experience**
  - Several years on ATLAS ITK (also as chair) and on RD50 SC
  - SC in a large experiment like ATLAS is major task with diverse bureaucratic and political challenges.
  - RD50 SC was very basic system (mostly PLs, IB Chair plus myself), not systematic, not really a "Speakers Committee"
- **Suggested Mandate of DRD3 SC**
  - Conferences: Deal **only** with overview talks (covering DRD3 summaries or at least several WGs)
  - WG-specific talks to be handled **within that WG**
  - Proceedings or publications: Deal **only** with overview proceedings

Setting up a SC in DRD3

- **Composition of DRD3 SC**
  - WGs to be represented (does not mean we need 8 people)
  - Young scientists or early stage researchers should also be represented
  - Nominations and volunteers are welcome – please contact me
  - SC members should be voted upon by the CB in the future
  - SC organised by chair and deputy, mostly by mail, sometimes zoom
  - SC should change regularly: rotating new members in to keep the experience

- **Abstracts**
  - To be compiled by SC. But: SC depends on you! Needs material from WGs (input from WG leaders and individuals)
  - Often abstracts need to be tailored or are conference-specific
  - To be published on CDS

- **Speaker selection**
  - We should expect only a few DRD3 overview talks per year
  - Suggestion: Group leaders nominate speaker candidates
  - Some details needed (e.g. *expertise, tenured or not, reason for nomination*)
  - SC will make a choice of speaker – based on nominations, expertise, career situation, # of talks a group already had, etc …

Common and Framework Papers

- **Draft DRD3 rules:**

  - Regular status reports: full author list
    (all DRD3 members are authors),
    review by SC

  - Journal papers (incl. Proceedings) covering the research
    programme of the whole Collaboration: full author list,
    review by SC

- "DRD3 promotes the publication of scientific papers
  in open access mode" …

- **Author List**: compiled by SC, based on input from
  CB members / group leaders

  - There is no qualification process, nor a mechanism for
    removing authors leaving DRD3

Relevant Conferences

- **Pixel 2024 Strasbourg**
  - 18-22 Nov 2024
  - abstract deadline 5 July
- **VCI 2025 Vienna**
  - 17-21 Feb 2025
  - abstract deadline 6 Oct

- „Regulars" in general:
  TIPP, IWORID, IEEE NSS, PISA, PSD, VERTEX …

- If you are involved in organising a conference that might be of interest to DRD3, please inform the SC

Backup

Albert-Ludwigs-Universität Freiburg

- **Speakers Committee is responsible for:**
  - Sending abstracts.
  - Appointing speakers for public talks.
  - Editing and taking care of the review of the common papers.
  - Maintaining an author list.
  - Proposing publication policies.
  - Awarding DRD3 thesis awards.
