Goals of the DRD3 WG8

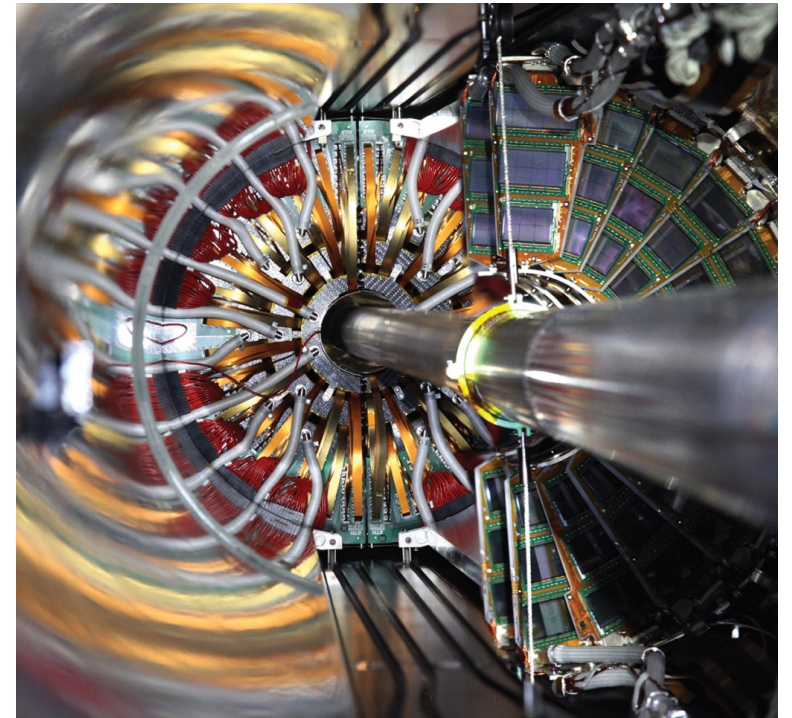

Mission: promote sensor R&D through various different activities

- Ensuring wide awareness of the work of the groups.
 - Media, publications, social media networks
- Website
- Speakers committee
- Training opportunities, such as schools and masterclasses
- Communication of upcoming external meetings which might be of interest.
- Explore other applications of the research
 - Nuclear physics, astrophysics, fusion...
- Contact with industrial partners.
- Participation in EU or similar funding projects.

Organisation of the work

- Convenors:
 - Myself and a TBD
- Webpage (talk today)
 - Gabriele D'Amen
- Speakers committee (talk today)
 - Ulrich Parzefall
- We will ask for contact from each working group to be the representatives in WG8
 - An excellent opportunity for an early career researcher
 - You are the ones that know your Working Groups the best.
- Additional people are more than welcome to join and give input!
- **Goal of today: Kick-off discussion**

Thank
you!

Backup

Here's one I prepared earlier
