

Mini CV

Grew up in Carinthia (south of Austria)

Bilingual upbringing & education (German & Slovenian)

Talent for languages/linguistics

Interested in astronomy since elementary school

Graduation from slovenian-taught high school

BSc from University Vienna (astronomy)

MSc from University Vienna (astronomy)

Science communication: Planetarium, volunteer journalist

Technical student at the CERN Courier

IT'S ME HI....

Name: Sanje [san-yeh] Fenkart

Age: 27 years

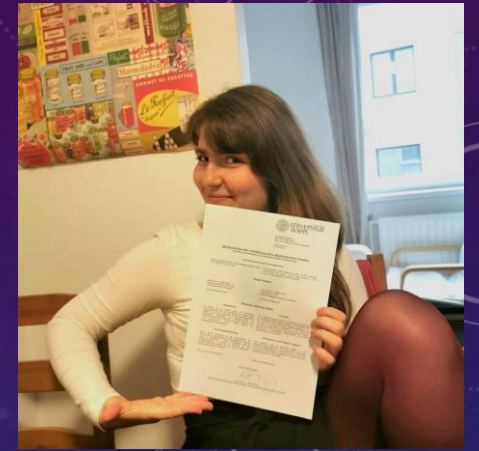

Zodiac: 2500 ago pisces (not updated since)

From: Austria

Size: Hobbit

ACADEMIC TRACK

- Started my bachelor's studies in October 2015
- (drowned in the absolute pain that studying (astro-)physics is)
- Bachelor's thesis on cluster galaxies and their specific evolutionary transformations
- Term abroad in Ljubljana (best city – go visit)
- Started working in planetariums – mainly in Vienna (2018-2022)
- Started my master's a few days before the first Covid lockdown
- (drowned in the absolute pain that studying 24/7 in a lockdown is)
- Master's thesis: A cosmologists' guide to outreach (research topic + outreach project)
- Got my degree after 3 ½ terms (November 2021)

AT CERN

January 2023 – May 2024:

- Editorial assistant for the CERN Courier (tech student, CoAS)
- Part of the writing team (all official CERN channels)
- Organised symposium „Electroweak milestones - 50 years of neutral currents, 40 years of W and Z bosons“ (October 2023)
- Curated the Nov/Dec23 special issue on science educations & outreach

June 2024 – May 2026 (per current contract)

- Communications officer for EVERSE:
 - European Virtual EEnstitute for Research Software excellence
- Build a network of first-class, standardised research software
- Early-career graduate (origins, formerly junior fellow)
- Will be asking stupid questions about coding
