Peter Maccallum

ELIXIR

Biography

Dr. Peter Maccallum is Chief Technical Officer of ELIXIR, where he leads the design and implementation of ELIXIR's technical strategy and oversees developments across ELIXIR's Platforms and Communities. Working with ELIXIR Members and international partners, he brings together scientific and technical expertise and resources for the development of a portfolio of bioinformatics services. He coordinates 'EOSC-ENTRUST – European network of trusted research environments' and 'BY-COVID – Beyond COVID', and participates in a range of other Horizon Europe projects around EOSC and life science research infrastructures.

Peter's career has delivered data solutions and research computing for universities and for the pharmaceutical industry, as Head of Research Computing Services at University College London and of IT & Scientific Computing for Cancer Research UK's Cambridge Institute, and Associate Director in AstraZeneca's Centre for Genomic Research. Peter holds a BSc in chemistry from Edinburgh University and PhD in biochemistry from Glasgow University.
