

# Jonathan Tedds

ELIXIR Hub

## Biography

Dr. Jonathan Tedds is ELIXIR Europe Programme Manager for Scientific Computing: Tools and Compute Platforms Coordinator; European Open Science Cloud (EOSC) Lead at Cambridge Hub. ELIXIR is an intergovernmental organisation (IGO) that brings together interoperable life science resources enabling federated analytics across Europe and beyond. Coordinate ELIXIR's leading AAI access and identity management service, LifeScience Login, and a range of Compute, Tools, Data, Interoperability and Training services on behalf of the ELIXIR Nodes and the EOSC Life Science Cluster. This includes software tools, Galaxy, WorkflowHub, containers, hybrid cloud and HPC. Our Nodes are deploying key services as core components of the European Genomic Data Infrastructure (GDI).
