

Celia van Gelder

Health-RI, the Netherlands

Biography

Dr. Celia van Gelder is Training Programme Manager of the Health-RI national health data infrastructure in the Netherlands, which is also the Dutch Node of ELIXIR (ELIXIR-NL). She is also the Network Manager of the national Thematic Digital Competence Center for Life Sciences & Health (TDCC-LSH), which started in September 2022.

Within DTL/ELIXIR-NL and Health-RI, FAIR data stewardship training activities have a prominent place. In ELIXIR, she was one of the leads of the Training & Capacity Building (T&CB) Work Package in the ELIXIR-CONVERGE project, in which Research Data Management (RDM) expertise and training resources in ELIXIR Nodes were built. She is involved in the T&CB activities in EOSC4Cancer. She has been co-chair of the EOSC-A Task Force Data stewardship, curriculum and career paths and is now co-leading the Opportunity Area Expert Group Skills, Training, Rewards, Recognition & Upscaling (OA5).
