

Natalia Manola

OpenAIRE, PathOS

Biography

Natalia Manola is the CEO of OpenAIRE AMKE, a non-profit pan-European e-Infrastructure supporting open science in Europe. She holds a Physics degree from the University of Athens and an MS in Electrical and Computing Engineering from the University of Wisconsin-Madison. Natalia has extensive experience as a Software Engineer in Bioinformatics and expertise in Open Science policies, having served on the EOSC Executive Board (2019-20) and the EC's Open Science Policy Platform (2016-17). Her research interests include e-Infrastructures, scientific data management, ML/AI for Science, and research analytics.
