

Gabriele Taentzer

Philipps-Universität Marburg

Biography

Gabriele Taentzer is a Professor of Software Engineering at the Philipps-Universität Marburg, Germany.

Her research interests include software evolution and software and data quality engineering. She is one of the leaders of the KONDA project on continuous quality management of dynamic research data on objects of material culture using the LIDO standard, founded by the German Federal Ministry of Education and Research. She also co-authored several chapters of the book "Managed Software Evolution" including an introduction to the nature of software evolution.
