Jan Bernoth
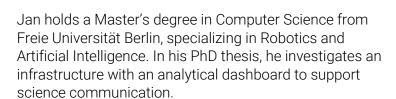

Research Associate, University of Potsdam, Complex Multimedia Applications Architectures

Biography

Jan Bernoth is a researcher at the University of Potsdam, affiliated with the Chair of Complex Multimedia Application Architectures. His main research focus is on designing the architecture of the infrastructure to support Research Data and Software Management within the National Research Data Infrastructure Germany consortium, NFDIxCS. He is also involved in engaging with the Research Data and Software Management community within and outside NFDI.

Jan holds a Master's degree in Computer Science from Freie Universität Berlin, specializing in Robotics and Artificial Intelligence. In his PhD thesis, he investigates an infrastructure with an analytical dashboard to support science communication.
