

Morane Gruenpeter

Head Open Science Operations, Software Heritage, INRIA

Biography

Morane Gruenpeter is Head of the Open Science operations at Software Heritage which includes acting as product owner of the source code deposit service, overseeing a variety of partnerships with entities such as the CCSD with HAL and Episciences platform, IPOL, eLife, Zenodo, SwMath, Dagstuhl, and others.

She spent several years as a professional harpist before earning a Master's degree in Computer Science from the University Pierre et Marie Curie in Paris.

She then joined the Software Heritage team in 2017. Morane is representing Software Heritage and INRIA in several European projects. In 2022, her role evolved as she assumed leadership responsibilities as the Work Package lead for WP6 in the FAIRCORE4EOSC project: Services and tools to archive, reference, describe and cite research software. Morane is also leading activities within the FAIR-IMPACT project and the SoFAIR CHIST-ERA project.
