

# Michael Goedicke

Senior Professor, University of Duisburg-Essen

## Biography

Michael Goedicke is a Senior Professor of Computer Science at the University of Duisburg-Essen and a member of the board of directors at paluno, The Ruhr Institute for Software Technology. He has previously served as the Chair of IFIP TC2 and IFIP's Technical Assembly as well.

His research focuses on the systematic design of software development methods and component concepts for constructing software systems, particularly in the domain of distributed and interactive systems. He is also a co-editor and author of the book "Managed Software Evolution", which addresses contemporary challenges in software engineering.

He is speaker of NFDIxCS consortium.
