

Cathrin Stöver

GÉANT

Biography

Cathrin has 27 years of experience working in the European and global Research and Education networking community. She is an active player in the European GÉANT projects contributing to their ongoing excellence. Her international profile includes the building of GÉANT-like structures in other continents. Over the past five years, she led GÉANT through the changing landscape of emerging new policies and resulting activities, raising early awareness and advising the organisation's and memberships' positioning in the European e-infrastructure landscape.

From 2019 to 2020, Cathrin was part of the EOSC Executive Board and led the establishment of the EOSC Association. In 2020, she was a founding Director of the EOSC Association and chaired the EOSC Association's first General Assembly in December 2020.

Cathrin is a member of the Scientific Council (Wissenschaftlicher Senat) of the NFDI, the German national research data infrastructure.
