

Stefan Skupien

Berlin University Alliance

Biography

Stefan Skupien has served as the Scientific Coordinator for Open Science at the Berlin University Alliance since 2020. His responsibilities include fostering and strengthening the Open Science community, providing training opportunities, and facilitating research on Open Science within the Alliance. He also played a key role in the development of the Alliance's mission statement on Open Science, which was unanimously adopted by all four member institutions in 2023.
