

Micky Lindlar (they/them)

TIB Leibniz Information Centre of Science and Technology

Biography

Micky leads the digital preservation team at TIB Leibniz Information Centre of Science and Technology in Hannover, Germany. With 15+ years of experience in digital preservation practice and research, they have a strong focus on technological implications of preservation processes, in particular file format validation, technical metadata, significant properties and risk evaluation.

Micky is a member of the EOSC Long-Term Data Retention Task Force and is involved in many digital preservation networks, such as the Open Preservation Foundation's Board of Directors, the PREMIS Editorial Committee and the RDA TRUST working group.

In 2020 Micky became the third recipient of the dpc fellowship, the coalition's highest award, in recognition of a 'substantial, generous and distinguished contribution to securing our digital legacy'.
