

Jan Rohden

German Research Foundation (DFG)

Biography

Dr. Jan Rohden joined the German Research Foundation (DFG) in 2021 as a consultant in the team responsible for the German National Research Data Infrastructure (NFDI).

In the course of his professional career, he has worked for various libraries and information infrastructures at national and international level, focusing on digital humanities, research data management and digital information services. These three areas of work are also at the core of his academic activities at the intersection between digital humanities, information science and literary studies.

Jan Rohden is an academic librarian and a specialist in Italian literature.
