

Kathrin Winkler

Open Science & Research Infrastructures Unit, DG Research and Innovation, European Commission

Biography

Dr. Kathrin Winkler is currently a seconded national expert in the Open Science and Research Infrastructures Unit of the European Commission's Directorate-General for Research and Innovation.

She is a chemist by training with a doctorate from the Max Planck Institute for Biophysical Chemistry in Göttingen, Germany. As a postdoctoral researcher, she worked in biophysical research at the Free University of Berlin before joining the German Research Foundation (DFG) in 2008. At the DFG, she has worked in a variety of areas: as Programme Director for Physical Chemistry, then as Head of DFG's Latin America Liaison Office in São Paulo, Brazil, and finally as Programme Director in the area of Open Science and Information Infrastructures, where she was responsible for programme development and management and represented the DFG in various European organisations.
