

Anna-Lena Flügel

German Climate Computing Center (DKRZ)

Biography

Anna-Lena Flügel is a dedicated Metadata Manager with a background in English Literature and Library Science. She currently works in the data management department of the German Climate Computing Center (DKRZ) in Hamburg, Germany. Anna-Lena is the Service Owner of B2FIND, EUDAT's discovery portal for interdisciplinary research data. In this role, she aims to enhance data discoverability and improve user access to information for researchers across Europe and beyond. Her expertise in organizing and managing digital resources allows her to combine FAIR data management principles and satisfying user experience, working towards efficient and intuitive information retrieval.

Anna-Lena has several years of experience working in EU projects and currently focuses on dissemination and community outreach for the FAIRCORE4EOSC project to foster adoption and exploitation of the FAIR enhancing services developed within the project.
