

Sara Pittonet Gaiarin

Senior Manager, Trust-IT Services

Biography

Sara Pittonet Gaiarin is a Senior Manager and shareholder at Trust-IT Services with over 10 years of experience in the implementation of complex digital outreach and marketing strategies, particularly in the context of European Open Science initiatives. Sara currently coordinates 2 high-profile Blue-Economy-related Horizon Europe projects: Blue-Cloud 2026 which is building a European federated platform for marine research; and VeriFish which supports the creation of an indicator framework to communicate sustainable fishery. Sara is also the outreach manager of the FAIR-IMPACT initiative.

By combining project management skills with a professional journalist background, she coordinates communication and marketing plans as well as the design of web-based solutions in domains ranging from Data Infrastructures to the Blue Economy, from Healthcare to Earth Observation Technologies.
