

## Angeliki Adamaki

ICOS Carbon Portal, University of Lund

### Biography

Dr. Angeliki Adamaki, scientist and project manager at the ICOS Carbon Portal and the University of Lund in Sweden. For the last 7 years Angeliki has been working for European Projects with particular interest in Open Science practices, FAIR data management and interdisciplinary research. At the panel discussion on the EOSC EU Node Angeliki represents HOMEROS, one of the OSCARS-funded projects that aims at strengthening multi-hazard assessment using Open Science to standardise accessible research and enhance collaboration within Geosciences.

Angeliki is also involved in ENVRI-Hub Next and IRISCC projects, and previously in ENVRI-FAIR and EOSC Future, supporting the design of the ENVRI-Hub and other services that demonstrate the EOSC added value in science and RI service development and provision.
