Philipp Wieder
GWDG

Biography

Philipp Wieder is Deputy Head of the Gesellschaft für wissenschaftliche Datenverarbeitung mbH Göttingen (GWDG), an IT service center and solutions provider for academic customers in Germany and Europe. Furthermore, he leads the eScience group, which operates a multitude of research projects within the EOSC landscape, the German National Research Data Initiative NFDI, and various other funding schemes. Furthermore, he is Honary Professor for "Data Science Infrastructures" at the Georg-August-Universität Göttingen.

Philipp is involved in the NFDI in multiple roles, including being co-spokesperson of the Text+ consortium and co-lead of the NFDI working group "Overall Architecture". He is committed to support the idea of a sustainable infrastructure for European as well as German research, best integrating existing proven services. In general, Philipp Wieder is interested in evolving results from research towards services as well as sharing his expertise with students and fellow colleagues.
