

# X-band technology session at the $\frac{3}{4}$ meeting

1. Very short introduction. Answer questions on technical and scientific aspects of the work packages and on our resource planning effort. 30 min.
2. Presentations by collaborators of their contributions .First a technical description of the work and then the content of the resource template. nx10-15 min. The presentations will be made either live, via web-ex or a CERN representative.
3. Initial discussion on the overall situation and how to merge all of the information. 45 min.
4. Draft merged list during Thursday afternoon? Volunteers?
