

News – 13.6.2024

The EU Officer of MuCol will visit CERN on June 19th. Agenda is planned, with a visit to Bdg. 180.

Preparatory work for the strategy to start over the next weeks:

- Review the organigramme of the collaboration and the plan (short and long term)
- List required R&D, on-going and beyond EU MuCol
- Review costs and profiles and produce an “aspirational” M+P forecast

We have now a partial picture of the resources engaged in the IMCC+MuCol. We are presently at about 700 FTEy and 50 MEUR for the next 5 years (secured).

IMCC design meeting: the working group is asked to report on status of advancement, main results, main issues. Please propose.

Also applies to future mmWG, please propose topics. We will take a “summer break” between second week of July and last week of August.
