

# WG8

---

## Training and Dissemination

<https://drd1.web.cern.ch/activities-wg8>

**Elisabetta Baracchini** (GSSI)

**Florian Brunbauer** (CERN)

**Mauro Iodice** (INFN Roma 3)

**Raheema Hafeji** (IGFAE, Uni. de Santiago de Compostela)

**Barbara Liberti** (INFN Roma 2)

**Alessandro Paoloni** (INFN LNF)

# WG8: Training and Dissemination

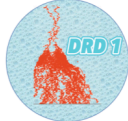

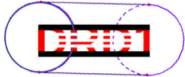

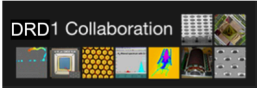

---

- General WG8 meetings (few)
- More frequent meetings on specific topics (school organisation)
  
- Welcoming input for focus of future topical workshops, activities and participation to ongoing activities

# DRD1 Logo

- Thank you to all who submitted proposals and for voting!
- 11 proposals submitted
- >200 votes recorded
- “Bravo to all!”

<p>1</p> 	<p>2</p>  <p>DRD1 Logo</p>	<p>3</p>  <p>Avalanche as the common term between technologies given the wide variety of detector designs in collaboration</p>	<p>4</p>  <p>Lines and images of technologies: solid (RPC), dashed (MPGD), dots (wires)</p>
<p>5</p> 	<p>6</p>  <p>A cylinder to represent a TPC with the DRD1 text between 2 electrodes symbolising RPC or GEM. DRD1 letters not continuous to illustrate multigap RPC or mesh grid.</p>	<p>7</p>  <p>This simple logo uses the stylized depiction of a cluster generated by a passing particle on a segmented readout circuit as the backdrop for the letters DRD1, written in CERN blue.</p>	<p>8</p> 
<p>9</p> 	<p>10</p> 	<p>11</p>  <p>DRD text with different patterns (wire strip dots or RPC MPGD wires... whatever) and the 1 is an ionisation track with ionisation starting in the middle ...connected to the strips... :)</p>	<p><b>Voting:</b>  <a href="https://indico.cern.ch/event/1424745/surveys/5476">https://indico.cern.ch/event/1424745/surveys/5476</a></p> <p><b>Deadline:</b>  <b>Friday, June 21, 10:00am (CEST)</b></p>

- Comments and questions refining / combining elements from logos
- We may ask CERN Graphic Design service to refine the winning logo design, taking into account some comments/feedback received

## Examples of feedback

- My order 5,4,11,8,10
- Bravo to all!
- This logo depicts the particle detection process, signal from the detector and the application of the particle detectors.
- I would change slightly the font. In particular, the light blue of "1" can be a problem in some contexts.
- thank you for all the very nice proposals
- I vote for Logo 5 but I would add below "Detector Technologies" as shown in Logo 2
- It looks nice
- I would combine with 4, taking from 4 the underline with solid line, hyphens and dots representing RPCs, MPGDs and wires
- Logo 5 for a second choice.
- My second option would be number 5
- Add the text "Detector technologies" below (like in logo #2)
- ...
