

F4E - Experience with 175MHz, 200kW, CW couplers for LIPAc's RFQ

Tuesday 2 July 2024 17:00 (1 hour)

Will be summarized what has been presented to the Experts of the working group and focus on the design and issues faced by O-ring couplers for the LIPAc RFQ while increasing the RFQ DC aiming at CW operation, and design and tests performed on the brazed couplers.

Presenter: CISMONDI, Fabio
