Precision EWK and QCD measurements from ATLAS, CMS, LHCb

Tuesday 22 October 2024 09:40 (40 minutes)

This talk will highlight the latest results from CMS, ATLAS, and LHCb on precision electroweak measurements, including the W boson mass, $\sin^2\theta_W$, and the $g-2$ from tau leptons, as well as recent determinations of the strong coupling constant, α_S , in quantum chromodynamics (QCD).
