

Session Program

29 August 2011 to 2 September 2011

**Implications of LHC results for TeV-scale
physics**

***WG1: Alternative Symmetry breaking
scenarios***

Friday 2 September

09:00

WG1: Alternative Symmetry breaking scenarios

Session | Location: CERN, 222/R-001

09:00–09:20 **Probes of Higgsless models**

Speaker

Veronica Sanz

09:20–09:40 **Implications of LHC Data for a Light Composite Higgs**

Speaker

Jose Ramon Espinosa Sedano

09:40–10:00 **WW scattering analysis**

Speaker

Alessandro Mario Ballestrero

10:00–10:20 **Alternative Higgs Scenarios**

Speaker

Jochum Van der Bij

10:30
