

Hadronics physics II

Thursday 17 October 2024 16:05 (55 minutes)

- Pre-compound and de-excitation models
- Intra-nuclear cascade models (Bertini, Binary, Liege (INCL))
- String models (Fritiof, Quark Gluon String)
- Capture/stopping models
- Fission models
- Elastic process
- Neutron physics
- Ion physics

Presenter: RIBON, Alberto (CERN)
