

CREATING A ZENODO JUPYTER LAB EXTENSION

MICHAEL ZENGEL

WHO I AM

WHO I AM

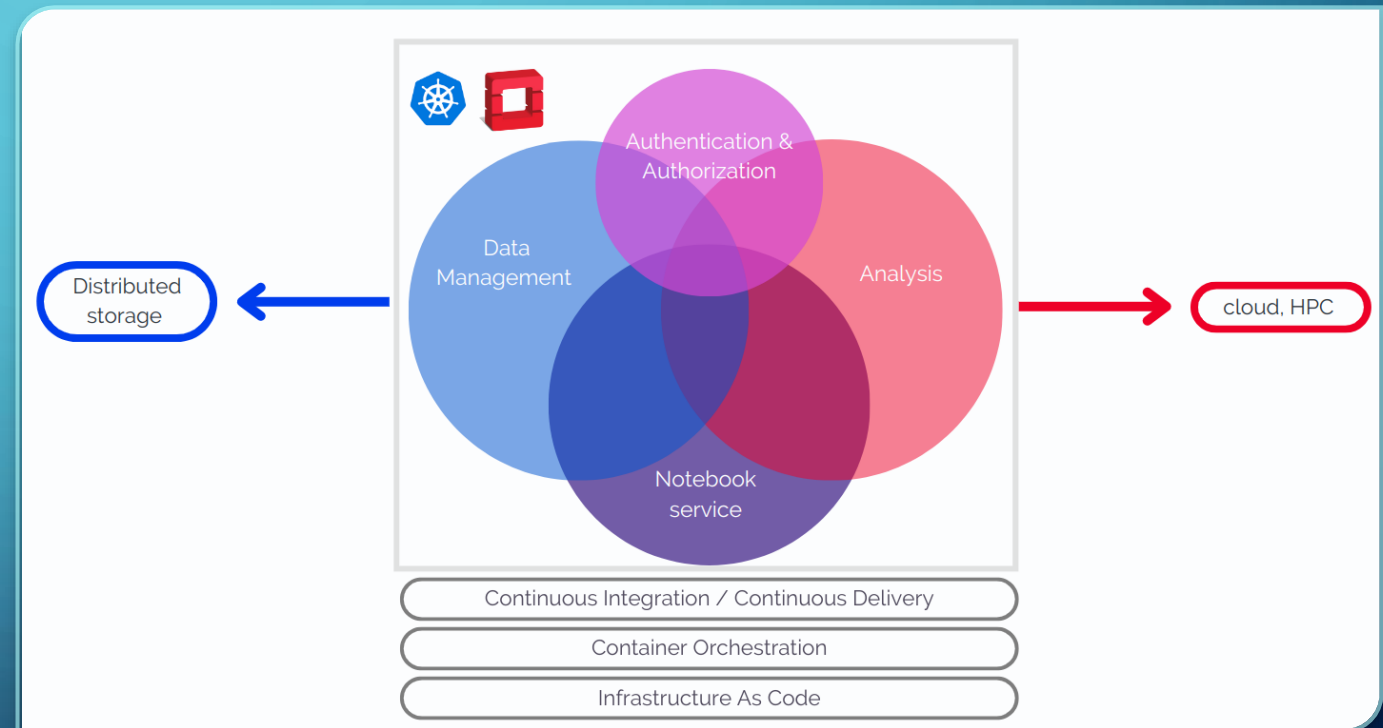

WHO I

MY "EXPERIMENT"

- Working in the IT department on the Virtual Research Environment (VRE)

MY “EXPERIMENT”

- The goal is to develop end-to-end physics workflows for use by any researchers in the WLOG and other researchers

MY MENTORS/SUPERVISORS

Enrique Garcia

Giovanni Guerreri

Xavier Espinal

Mentors

Supervisor

MY PROJECT

zenodo

- Developed by the OpenAIRE project
- Encourages open data policies
- Used by researchers all over the world
- Databasing software with different communities

MY PROJECT

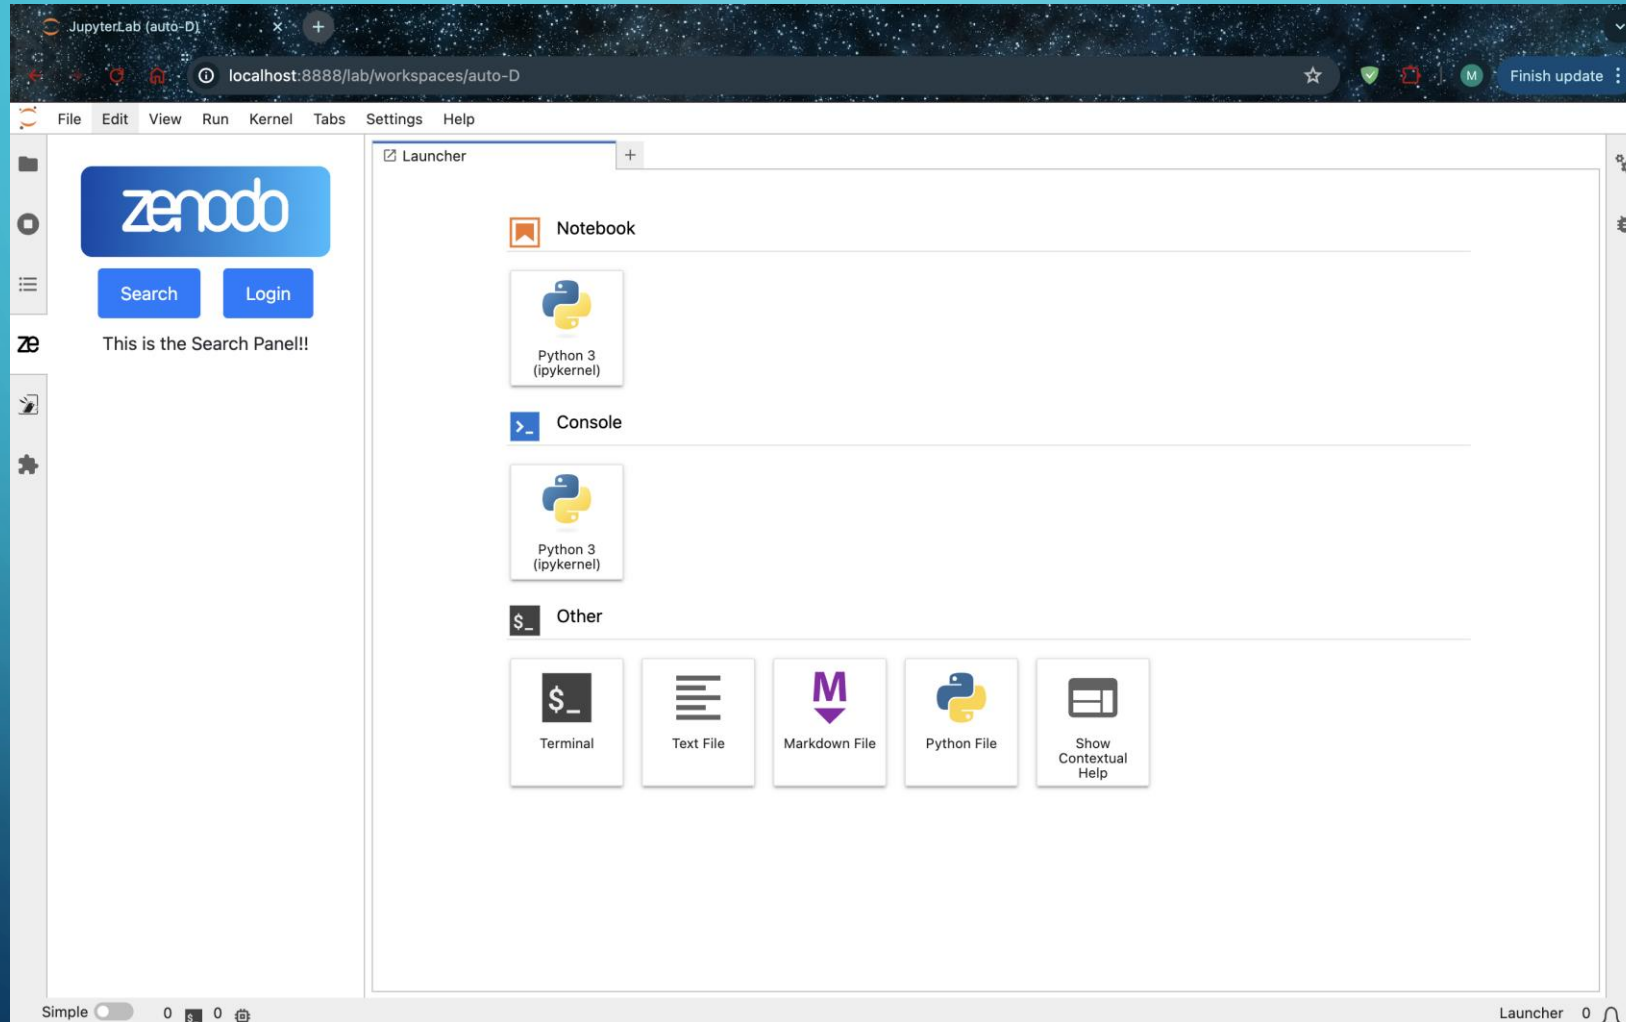

zenodo

- Developed by the OpenAIRE project
- Encourages open data policies
- Used by researchers all over the world
- Databasing software with different communities

jupyterlab

- Computing Environment
- Already integrated with Github and python packaging
- Extension already exists that integrates Rucio

MY PROJECT

TRAVELING
