

# UK-CERN Updates 19-June-2024

## Cryoline Procurement

- Contract awarded for first biphas
  - 3x quotes received
  - Awarded to Hyde
    - Example weld docs provided, met requirements
    - In-house manufacturing (machining, forming)
    - In-house metrology (CMM, laser scanning, inspection arms), NDT, and pressure testing capabilities
    - Robust traceability processes
    - Would require support with leak testing, STFC can provide
    - Supplier to nuclear and aerospace based in NW, STFC can give strong oversight
- Site visit planned for tomorrow (AJBM + NT) to review first draft MIP and tour facilities
- Invitation to Tender launched for 4 sets of cryolines (exc. biphas)
  - All docs revised w.r.t. lessons learnt from combined ITT
  - UKRI-4042 Cryogenic Lines for DQW Cryomodules on FTS
  - Opened 17-June
  - Closes 22-July
