

Session Program

20-22 Jun 2007

**RICAP'07 - Roma International Conference on
Astroparticle Physics**

Plenary Session: Gamma Detection - 1

University of Roma "La Sapienza"
Piazzale Aldo Moro 2 00185 Roma - Italy

Wednesday 20 June

14:30

Plenary Session: Gamma Detection - 1

Session |**Location:** University of Roma "La Sapienza", Aula Magna Rettorato, Piazzale Aldo Moro 2 00185 Roma - Italy

14:30-14:45

Welcome and Conference opening

Speakers

Antonio Capone (Chairman of the Conference), Francesco Ronga (Chairman of "INFN Commissione Scientifica II (Astroparticle Physics)")

14:45-15:10

TeV Gamma-Ray Observations with Milagro

Speaker

Gus Sinnis

15:10-15:35

ARGO-YBJ experiment in Tibet

Speaker

Giacomo D'ali' Staiti

15:35-16:00

Gamma-ray astronomy: Recent results from the H.E.S.S. telescope system

Speaker

Gerd Pühlhofer

16:00-16:25

Highlights of MAGIC results

Speaker

Denis Bastieri

16:25-16:50

First Results from the VERITAS Gamma-ray Telescopes

Speaker

David Hanna

16:50
