The graphic features a dark blue background with glowing particles and hexagonal shapes. Three large, semi-transparent hexagons are arranged around the central text: a blue one on the left, a purple one at the bottom, and a teal one on the right. Each hexagon contains text related to the event's themes.

Mentoring

Mentoring and its benefits

For a **mentee**, the benefits of having a mentor include access to **support, feedback and resources** and being given a **fresh/different perspective**. **Goals** can often be **achieved quicker** and a good mentor can also **identify new skills** and help to **inspire, motivate and increase confidence or self-esteem** and provide a platform of **accountability**. Mentoring can improve the mentees ability to resolve **challenges**.

For a **mentor** mentoring can be a hugely **gratifying** experience, where **satisfaction** is derived from **empowering** the mentee with positive outcomes. The passing of knowledge is a great way of **giving something** back to others. Mentoring provides a real opportunity to **make a difference** to the success of others. It also provides the mentor with an **opportunity to learn**.

Discover CERN Alumna, **Pratibha Vikas'** personal experience of mentoring shares her experience of mentoring in this short video.

Home BENEFITS CAREER BE INVOLVED EVENTS NEWS ABOUT US **Join Now!** Login

Share your thirst for science.

The CERN Alumni Network provides those who have left the Laboratory with a means of keeping in touch with CERN and with each other. It fosters ambassadorship for the mission and values of CERN and the scientific collaborations and supports its members with their future career development.

Whether you have worked at CERN or work at CERN today, as a user, student, associate, fellow or staff, REGISTER NOW and join an ever growing, dynamic community united by a shared pride in having contributed to CERN's scientific endeavours.
