

Session Program

18-22 May 2025

CEC/ICMC 2025 Abstracts & Technical Program

C2Po1B - Large Scale Cryogenic Systems III: Operation & Design III

Peppermill Reno
2707 S. Virginia St. Reno, NV 89502

Tuesday 20 May

09:15

C2Po1B - Large Scale Cryogenic Systems III: Operation & Design III

Poster Session | **Location:** Exhibit Hall, Tuscany Ballroom

C2Po1B-03: Design of the Tunnel Transfer line of PIP-II Cryogenic Distribution System

Speaker

Vrushank Patel

C2Po1B-01: LHC cryogenic system adaptation and recovery after a major insulation vacuum breakage in a final focusing superconducting magnet in 2023

Speaker

Benjamin Bradu

C2Po1B-02: The SCL3 linac operation and improvements following RAON's 2nd beam commissioning

Speaker

Dr MinKi Lee

C2Po1B-04: PIP-II Cryogenic Distribution System - status and outlook

Speaker

Dr Ram Dhuley

C2Po1B-05: Operational experience of QWR cryomodules for RAON

Speaker

Dr Youngkwon Kim

C2Po1B-06: Introduction to the protection system for RAON cryogenic system

Speaker

Seojeong Kim

11:00
