Session Program

18-22 May 2025

CEC/ICMC 2025 Abstracts & Technical Program

C2Po3C - New Devices, Novel Concepts, and Miscellaneous I

Peppermill Reno 2707 S. Virginia St. Reno, NV 89502

Tuesday 20 May

Poster Session Location: Exhibit Hall, Tuscany Ballroom C2Po3C-05: Small Scale Joule Thomson Hydrogen Liquefaction - A Comparison of Two Liquefaction Cycles Speaker Henrik-Gerd Bischoff C2Po3C-01: Thermodynamic and mechanical properties of solid-phase media for moving cryogenic energy storage packed beds Speaker Dr Zhaozhao Gao C2Po3C-02: Machine Learning Methods for Cryocooler Performance Optimization and Failure Prediction Speaker Hannah Rana C2Po3C-03: Quantum computer cryogenic cooling system	Two Liquefaction Cycles Speaker Henrik-Gerd Bischoff C2Po3C-01: Thermodynamic and mechanical properties of solid-phase media for moving cryogenic energy storage packed beds Speaker Dr Zhaozhao Gao C2Po3C-02: Machine Learning Methods for Cryocooler Performance Optimization and Failure Prediction Speaker Hannah Rana	
Two Liquefaction Cycles Speaker Henrik-Gerd Bischoff C2Po3C-01: Thermodynamic and mechanical properties of solid-phase media for moving cryogenic energy storage packed beds Speaker Dr Zhaozhao Gao C2Po3C-02: Machine Learning Methods for Cryocooler Performance Optimization and Failure Prediction Speaker Hannah Rana C2Po3C-03: Quantum computer cryogenic cooling system	Two Liquefaction Cycles Speaker Henrik-Gerd Bischoff C2Po3C-01: Thermodynamic and mechanical properties of solid-phase media for moving cryogenic energy storage packed beds Speaker Dr Zhaozhao Gao C2Po3C-02: Machine Learning Methods for Cryocooler Performance Optimization and Failure Prediction Speaker Hannah Rana C2Po3C-03: Quantum computer cryogenic cooling system Speaker Marco Roveta	
Speaker Dr Zhaozhao Gao C2Po3C-02: Machine Learning Methods for Cryocooler Performance Optimization and Failure Prediction Speaker Hannah Rana C2Po3C-03: Quantum computer cryogenic cooling system	moving cryogenic energy storage packed beds Speaker Dr Zhaozhao Gao C2Po3C-02: Machine Learning Methods for Cryocooler Performance Optimization and Failure Prediction Speaker Hannah Rana C2Po3C-03: Quantum computer cryogenic cooling system Speaker Marco Roveta	Speaker
C2Po3C-02: Machine Learning Methods for Cryocooler Performance Optimization and Failure Prediction Speaker Hannah Rana C2Po3C-03: Quantum computer cryogenic cooling system	C2Po3C-02: Machine Learning Methods for Cryocooler Performance Optimization and Failure Prediction Speaker Hannah Rana C2Po3C-03: Quantum computer cryogenic cooling system Speaker Marco Roveta	moving cryogenic energy storage packed beds Speaker
C2Po3C-03: Quantum computer cryogenic cooling system	C2Po3C-03: Quantum computer cryogenic cooling system Speaker Marco Roveta	and Failure Prediction
	Marco Roveta	C2Po3C-03: Quantum computer cryogenic cooling system
Performance
